... Testimonials

Anwar Khawaja Industries (Pvt) Ltd.

- We are working on a system since last many years but it is the need of hour to upgrade it. After a critical analysis based on technical skills, implantation methodology, industry knowledge and level of understanding; we finally select AWM Systems as our software development partner.

Sublime Soccer (Pvt) Ltd.

- “Our compliance system is focal point for customer and we don't have room for mistakes”, AWM knows what we need and our customers as well and they achieve what we expect. We change our software development partner and we are happy on it. The good thing about AWM is their pace.

Padana Group

- We are working without any software system since last many years, but now we realize that our stocks are pile up beyond limits, our accounts were un-managed and Trims sheets had big variance after implementing AWM's solution. We are working now to handle these things and AWM is our partner in this.

... Testimonials

Kicker Sports

- We were in need of a quick solution for large-scale operations of Soccer and Gloves, we had tried one but it ended in failure. Then AWM contacted us and we started with Stock Management with them and I was surprised with their speed (They are really very quick in implementation). We decided to move for Order Management too and now we are working on Payroll and Production. The support is timely and expedient, and most importantly, invaluable. We HIGHLY recommend AWM Systems to anyone looking for such a solution. "
