AWM Systems Inc. is an emerging Software development, IT Integration, Management and Internal control systems consultancy firm. We strive to satisfy the most elaborated Management and IT needs of our customers under one umbrella and meet the ever increasing pressure to cut costs to survive the ongoing recessions. Our team consists of creative individuals with top Financial, IT, Project management, and in depth understanding of product engineering principles.

Why ERP ? - Unify Business Proesse across the Enterprise with a single, integrated platform of ERP, you can automate key business function across all departments, including sales, marketing, service, finance, inventory, order fulfillment, purchasing, and employee management. Your employees no longer have to re-enter data in different systems, rectify inconsistent or inaccurate data, or wait for batch updates. Instead, all your employee view and share accurate data in real time, leading to greater collaboration among department and increased productivity across your business.

Why ERP ? - Increase Visibility for Better Decision Making customizable Dashboards offer real-time acces to key performance metrics, supporting intelligent, timely business decisions. In addition, full visibility into unified customer record result in more efficient and highly personalized sales, fulfillment, and service processes.
